

Thailand stands as a model to other South East Asian nations as a bedrock of peace and stability in a region which has seen much turmoil.

Today, the Thais have much to be proud of in the robust development of their economic strength and their leadership in Asian commerce. The interdependence of our economies binds us even closer together and Thai-Americans have made strong contributions to American society and culture.

Mr. Speaker, it is a honor to recognize this 19th century treaty which serves as the foundation of a long and prosperous relationship. It is hoped that Thailand and the United States will continue their long-standing and mutually beneficial friendship which serves as a model of cooperation in the region.

# REPUBLICAN HEALTH BILL WILL RIP-OFF SENIORS BY PERMIT- TING SALES OF BAD INSURANCE PRODUCTS

HON. FORTNEY PETE STARK

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, March 26, 1996*

Mr. STARK. Mr. Speaker, the health insurance bill that was approved by the Ways and Means Committee last week contains language that completely guts the laws against Medigap fraud and abuse.

The following letter from a consumer advocate explains why.

It is another reason the House should pass a simple, pure Kennedy-Kassebaum bill.

SENIOR HEALTH INSURANCE ISSUES,

*Scotts Valley, CA, March 20, 1996.*

Hon. BILL ARCHER,

*Chairman, House Committee on Ways and Means, Longworth HOB, Washington, DC.*

DEAR CHAIRMAN ARCHER: I am very concerned about an Amendment by Mr. Collins that recently passed out of the Committee on Ways and Means on Duplication and Coordination of Medicare Related Plans. I have been a consultant on Medicare, supplemental insurance and long term care insurance for more than eighteen years to both state and national consumer groups. I was very active in a lawsuit brought by the Santa Cruz District Attorney against an insurance agency for overselling duplicative and overlapping coverage to seniors in 1989. We both testified repeatedly in both Houses on this issue prior to the passage of OBRA 90.

While there is a legitimate reason to carve out a narrow exemption for disabled Medicare beneficiaries who have purchased guaranteed issue major medical coverage that duplicates and coordinates against Medicare, the Collins Amendment does not even address that issue. The proposed amendment language rolls back all federal and state protections since 1980 against selling multiple and duplicate policies to seniors on Medicare. This Amendment would allow companies and agents to sell seniors any amount and combination of policies on top of their Medicare and a Medicare Supplement. This practice has a long and disgraceful public history that led Congress to take action several times over the last two decades.

Not only would the proposed language repeal all federal protections, it would repeal all existing state laws and prohibit the enactment of any future state laws to protect elderly consumers. In addition to allowing the sale of excessive and duplicative coverage, it would also allow companies to co-

ordinate those benefits against Medicare and other existing health benefits.

I find it very hard to believe that this Congress would allow these practices to resume and strip states of their rights to protect their own citizens from these abusive practices. Good public policy demands that seniors make the best use of scarce premium dollars and use any excess towards providing for their long term care needs, not the purchase of unnecessary duplicate coverage. I urge you to take a closer look at this issue.

Sincerely,

BONNIE BURNS,  
*Consultant.*

SENIOR HEALTH INSURANCE ISSUES,

*Scotts Valley, CA, March 20, 1996.*

Hon. NEWT GINGRICH,

*Speaker, The Speakers Office, House of Representatives, Washington, DC.*

DEAR SPEAKER GINGRICH: Enclosed are copies of letters I have written commenting on the recent proposed federal legislation on tax clarification of long term care insurance and on duplication of medical benefits for people on Medicare. I understand that both of these issues will be voted on the floor shortly in one or more bills related to health insurance reform. These legislative proposals are almost identical to language contained in the Budget Bill that garnered many of the same concerns. I hope you will consider the issues I have raised in my letters to the Chairs of the various committees and subcommittees. These are extremely important issues that have profound repercussions for older consumers.

Stripping states of their rights to regulate consumer protections within their borders for their oldest and most vulnerable citizens is not consistent with your desire to allow states more flexibility and choice. Is it your public policy position that overinsurance for health care costs in the oldest and sickest populations is a desirable outcome? I can't imagine that you want to see seniors using their scarce health care premium dollars that should be spent on long term care coverage used to purchase unnecessary and excessive health care coverage.

Please take a careful look at these issues.

Sincerely,

BONNIE BURNS,  
*Consultant.*

## IN HONOR OF CALIFORNIA RECLAMATION DISTRICT NO. 108

HON. VIC FAZIO

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, March 26, 1996*

Mr. FAZIO of California. Mr. Speaker, I rise today to honor California reclamation district No. 108, which is celebrating its 125th year of operation.

In 1868, the California State Legislature authorized the organization of reclamation districts to encourage residents to transform the State's swamps and flooded areas into arable land. One of California's oldest reclamation districts, No. 108, dates from September 1870. District No. 108 was organized by Yolo and Colusa County landowners for the purpose of slaving the tule lands that extended from the western bank of the Sacramento River to the Colusa Basin.

One of district No. 108's earliest and most important responsibilities was flood control. Tens of thousands of acres of district land occupied low-lying areas of the Colusa Basin,

surrounded on three sides by water during flood periods. The district had the immense challenge of dealing with potential flooding. In order to handle this contingency the district helped fund and maintain the Knights Landing to Princeton levee on the west side of the Sacramento River, as well as other levees outside district boundaries.

At the turn of the century, the district purchased areas of Sutter and Colusa County land, which it used as outlet channels to relieve pressure on the west side Sacramento River levees. During the same period, district authorities supervised the construction of a back levee to protect district lands from northern and western flood waters.

As development of lands within the district grew, so did R.D. 108's flood control efforts. Eventually, the district's work at the Knights Landing Ridge resulted in the 1915 formation of the independent Knights Landing Ridge Drainage District. During the same period, the newly-created Sacramento River West Side Levee District assumed maintenance control of the West Side Levee between the towns of Knights Landing and Colusa.

The earlier flood control efforts undertaken by district No. 108 laid the foundation for the development of these newer entities. District No. 108 developed a strong cooperative relationship with these bodies which continues to this day. The entire lower portion of the Colusa Basin enjoys greater flood protection as a result of this cooperative effort.

In the early years of this century the district expanded its focus, moving into the realm of irrigation. In 1917 district No. 108 obtained permission to irrigate lands not adjacent to the Sacramento River. An intense effort was mounted to establish an irrigation and drainage system which would serve the entire district. This effort was completed with great success. Today, there are 118 miles of irrigation ditches and over 300 miles of drains operated and maintained by the district.

In recent years, reclamation district No. 108 has faced a variety of challenges. During the 1960's the district worked with Sacramento River Water users and the U.S. Bureau of Reclamation to formulate a supplemental water supply plan. Today, district No. 108 is bringing together Federal, State, environment, and water administrators and landowners in an attempt to develop a feasible and cost effective method for protection of the Sacramento River's endangered fish.

## CELEBRATION OF JAN PIERCE'S 40 YEARS OF PROGRESSIVE LABOR LEADERSHIP

HON. THOMAS J. MANTON

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, March 26, 1996*

Mr. MANTON. Mr. Speaker, I rise today to pay tribute to Jan D. Pierce, the vice president of the Communications Workers of America, District One.

For the last 40 years, Mr. Pierce has worked tirelessly as a progressive labor leader in the communications industry and has been a leading advocate for rank and file unionism in the United States.

Mr. Pierce has been an active union member his entire working life, beginning with his
